- A stimulating values-based work environment
- A culture of collaboration and inclusion
- Inspiring colleagues and approachable leaders
- Career development opportunities
- A deeply rooted commitment to responsible mining, health and safety and community engagement
- A competitive total compensation program
- A comprehensive benefits package including a retirement savings plan

About Coeur Mining:

Coeur Mining is a growing, all-North American precious metals producer with seven operations: the Las Chispas silver-gold mine and Palmarejo gold-silver complex in Mexico, the Rochester silver-gold mine in Nevada, the Kensington gold mine in Alaska, the Wharf gold mine in South Dakota, the Rainy River gold mine in Ontario, Canada, and the New Afton copper-gold mine in British Columbia, Canada. In addition, Coeur owns the Silvertip silver-zinc-lead exploration project in British Columbia.

Coeur offers a flexible, hybrid work model and a culture built on safety, collaboration, and real opportunities to develop your career for those who want to grow alongside a company that is doing the same.

Rainy River

Situated in beautiful northwestern Ontario, 65 km northwest of Fort Frances, the Rainy River mine is an open pit and underground, gold and silver producing, residential mine site.

The Rainy River mine, located adjacent to the Ontario/Minnesota border is 65 kilometers northwest of Fort Frances, Ontario and is situated half way between Winnipeg, Manitoba and Thunder Bay, Ontario. The area is home to more than 130 species of birds and large populations of moose, black bear and deer. If you enjoy outdoor activities including hunting, fishing, winter sports and lake country then this is an area you will love to live and work in.

Applicants who reside in Northwestern Ontario and have experience working in a cross-cultural environment, coupled with knowledge of the unique challenges and opportunities presented to those living in the Northwest Ontario, are assets. Hiring priority will be given to qualified applicants who are beneficiaries of the Impact Benefits Agreement (IBA) and to qualified applicants residing in the Northwest Ontario communities. (Indigenous) Members must clearly identify their status on the online job application and resume if they wish to receive priority consideration.

About The Role

Schedule: 14/14

Position Reports To: Exploration Manager

Role Overview:

Reporting to the Exploration Manager, the Exploration GIT is responsible for core logging and sampling, as well as field mapping and prospecting activities. The role will work in close collaboration with the senior and project geologists to ensure all geological data is accurate and that the drilling activities are executed in a safe manner. The candidate is expected to use its geological knowledge to contribute to geological interpretation and to drill program planning.

Responsibilities

- Core logging and sampling for the near mine and regional diamond drilling programs.
- Ensure the sampling QAQC protocols are followed and monitor QAQC results.
- Assist with the regional exploration programs, including but not limited to, geological mapping, soil sampling, core logging, and evaluation of results.
- Assist with RC drilling program in a pit environment, including but not limited to, picking up samples, survey collar point, contractor management and sample shipment.
- Contribute to the local and regional geological interpretation and to drill hole planning.
- Monitor database integrity and ensure all logging data and other field data are properly integrated.
- Assist with supervision of field drilling activities and ensuring the contractors are compliant with Rainy River H&S policies.
- Maintain and update standard operating procedures dealing with data collection and core cutting activities.
- Other related duties to support the Exploration team as required.

Skills, Knowledge, Qualifications and Experience

- A minimum bachelor's degree in Geology or Earth Science
- Registered or eligible to register as a geologist-in-training in Ontario, Canada
- Previous exposure to Exploration environment, 1 year of professional experience is an asset
- Valid Driver's license
- Good computer skills with knowledge of the Microsoft Office Suite
- Competence in Leapfrog and ArcGIS is an asset
- Good writing and communication skills
- Ability to work independently or within groups
- A demonstrated commitment to safety, environment, and community

Compensation

The anticipated salary range for this position will be between \$80,000.00 - \$90,000.00.

**Note: this employment opportunity is based on an actual current vacancy, not just for future consideration*

Why Coeur Mining?

- Highly competitive base salary, and a quarterly incentive program
- Extended Health & Dental Benefit
- Short-term and long-term disability insurance benefit
- Defined match contribution to group registered retirement savings account

We thank all applicants for their interest but will only contact candidates selected to advance in the hiring process. Coeur Mining does not accept resumes from employment placement agencies, head-hunters or recruitment suppliers that are not in a formal contractual arrangement with the Company. Any resume or other information received from a supplier not approved by Coeur Mining will be considered unsolicited and will not be considered.

Inclusion, Equal Opportunity, Accessibility

Coeur Mining is an equal opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veterans' status, Indigenous status or any other legally protected factors. Disability-related accommodations during the recruitment process are available upon request.
